(3) Core financial measures reflect the results of the CCS, NICS (excluding DAS) and ANS segments, in the aggregate, and exclude general corporate costs that were previously allocated to the OWN segment, DAS business unit and Home segment, since these costs were not directly attributable to these discontinued operations. Beginning in the first quarter of 2024, these costs related to the Home segment have been reallocated to the remaining segments. These costs related to the OWN segment and DAS business unit will be reallocated to the remaining segments beginning in the first quarter of 2025.

“2024 marked a transitional year for CommScope. Despite a challenging start, and volatile market conditions, we stayed committed to what we could control to improve company performance and profitability with sequential Core quarterly adjusted EBITDA improvement throughout the year. For the fourth quarter, Core CommScope reported net sales of \$1.17 billion, an increase of 27% from the prior year and delivered adjusted EBITDA of \$240 million, an improvement of 69% year-over-year. Fourth quarter adjusted EBITDA as a percentage of revenues was 20.6%, a year-over-year improvement of 510 basis points. Supported by our investments in production capacity, the CCS segment led the way with growth in all businesses, with the strongest growth in hyperscale and cloud data centers to support GenAI datacenter builds across the world,” said Chuck Treadway, President and Chief Executive Officer.

“For the full year 2024, Core CommScope reported net sales of \$4.21 billion declining 8% from the prior year but delivered adjusted EBITDA of \$756 million which remained flat year over year. With improvement throughout the year, we are well positioned as we move into 2025. Our 2025 annual guideposts of Core adjusted EBITDA are in the range of \$1.00 to \$1.05 billion,” said Kyle Lorentzen, Chief Financial Officer.

Free cash flow for the fourth quarter was \$271 million driven by stronger EBITDA. For the full year 2024, free cash flow was \$248 million. We ended the year with a strong liquidity position of \$1.1 billion including \$663 million of Cash and approximately \$449 million of ABL availability.

As previously announced, in the fourth quarter of 2024, CommScope made significant progress on our debt position by refinancing a portion of our debt resulting in pushing out our 2025 and a portion of the 2026 debt maturities to 2029 and 2031. The debt refinancing, coupled with the sale of our OWN and DAS businesses that closed on January 31, 2025 and subsequent repayment of approximately \$2 billion of debt with the proceeds, clearly puts us in a stronger position to focus on business growth, free cash flow generation and deleveraging.

On January 31, 2025, the Company completed the previously announced sale of the OWN segment and the DAS business unit of the NICS segment to Amphenol Corporation. As a result of the transaction, unless otherwise noted, these financial results relate to CommScope’s continuing operations based on the following remaining three operating segments: CCS, NICS and ANS. For all periods presented, amounts have been recast to reflect these changes.

Certain amounts have been adjusted to reflect the correction of immaterial errors as described in the Annual Report on Form 10-K and are labeled “As Adjusted” within the tables below.
