Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► On August 27, 2026, Vistance Networks, Inc. ("VISN") paid a special distribution of \$5.00 per common share to its shareholders of record as of August 17, 2026.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► The distribution paid on August 27, 2026 is not a dividend for U.S. federal tax purposes and will be treated as a nontaxable return of capital to the extent of the shareholders' tax basis. Any amount of the distribution that is in excess of the shareholder's tax basis will be treated as a gain for U.S. federal tax purposes.

Shareholders should consult their own legal or tax advisors to determine the income tax consequences based on their specific situations. VISN is providing this form for information purposes only and not as legal or tax advice.

This form was prepared based on estimates as of the date the form was posted to VISN's public website. Estimates can change throughout the year, which may change the character of the distribution. In the event this occurs, VISN will file a correct Form 8937 for impacted distributions pursuant to applicable Treasury Regulations.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► In accordance with Internal Revenue Code Sections 301(c) and 316(a), the taxability of the distribution made on August 27, 2026 is based on VISN's earnings and profits as computed for U.S. federal income tax purposes. Based on VISN's estimated current and accumulated earnings and profits, the distribution is a nontaxable return of capital to the extent of the shareholder's tax basis.
